AMONG THE COLLEGES.

DARTMOUTH.

MANY CHANGES AND GREAT IMPROVEMENTS.

Hanover, N. H., Sept. 24 (Special).-The fall term favorable circumstances. The entering class is the largest in the history of the institution, numbering 125 in the regular college department, while the Medical School has the largest enrolment in its annals, or about 130. The Thayer School in its new home-the New-Hampshire Experiment Station, made vacant by the removal of the Agricultural College to Durham-is in a most flourishing condition. So many changes have been made in the college grounds, buildings, curriculum, and especially its faculty, that it seems more like an-By the incorporation of the Chandler School into college, Professors Ruggles, Sherman, Hazen d Jesup are transferred to the college faculty, to known as professors on the Chandler foundation. Professor Charles D. Adams, of Drury Col-Springfield, Mo., takes the Greek chair, made ardson, who will have the direction of the Amer-

The chair of oratory, made vacant by the death ex-Senator James W. Patterson, has been divided. Professor Fred Parker Emery, Dartmouth, '87, will have the rhetorical or Williard foundation. But on account of an agreement with the Institute of Technology, where he is at present engaged, his services cannot be had until next year. Meanwhile that department will be under professor John K. Lord. The other division, or hat of oratory, has not yet been filled. Professor Charles F. Emerson, Appleton professor of physics, been made dean of the faculty, being the first in the college's history. He will still hold his chair, being assisted by Professor A. C. Crehore, Yale,

The new chair of biology is to be filled by Professor William Patten, Ph. D., Harvard, '98. Pro-fessor Patten was the Parker Fellow for three years after graduation, studying chiefly at Naples, afterward for two years assistant in the Allis Laboratory at Milwaukee, and for the last four ears professor of biology in the University of

Professor D. C. Wells, Yale, '81. After studying at Andover and in Germany, Professor Wells taught in Phillips Andover Academy, and for the last two years has been professor of history and political economy at Bowdoin College.
Professor Herbert D. Foster, Dartmouth, '85, has

cted to the professorship of history. Proessor Foster is a son of the Rev. Dr. Davis Foster, of Massachusetts. He was a teacher in Wordester, of Massachusetts. He was a teacher in Worcester Academy four years, and for the last two years has been pursuing graduate study at Harvard. He has been granted a leave of absence for one year to study abroad, and his work at Dartmouth will be done by Professor Wells.

Frofessor John C. Roe, Ph. D., Leipsic, '93, has been elected to an instructorship in modern languages, assisting Professors Pollens and Ruggles. E. H. Carlton, Bowdoin, '93, has entered the Medical College, and will have charge of the gymnasium work formerly done by Professor T. W. D. Worthen.

orthen. Ex-Senator Dawes, of Massachusetts, will deliver course of lectures on "American History, During d Since the Civil War," on the Gardner G. Hub-rd foundation.

YALE.

New-Haven, Conn., Sept. 24 (Special).-College will open Thursday, and the advance guard of stuients with conditions and those anxious to secure good rooms are already on the ground. As is variably the case the talk is chiefly concerning athletics instead of recitations, and more interest is felt in paraphernalia of the football field than in the text-books of the classroom or the study. Captain Hinkley, of the football team, has been

working his men very hard, and they are certainly lot of young men. Stillman, the centre sh, is a heavy fellow, weighing 230 pounds. Capafteen pounds of that weight in one week's train-McCrea, the big right guard, weighs 210 ands, and is as strong as a giant. Beard, who has acted as substitute guard for two years, weighs 190 pounds, and in consequence of his long training on the crew last spring, he has much greater strength and endurance than he had during the football season of one year ago, W. R. Cross, who was captain of last year's crew, is already in trainand will undoubtedly be selected as a member of the team. He is six feet two inches tall, and weighs about 200 pounds. He has great endurance, and is always cool and influenced by excellent judgment. Another Cross is to come from Exeter to enter the Freshman class, and the reports conweighs 218 pounds, and is six feet three room, built entirely of solid stone. his intention to play football and row this year.

Those students who are already in town are much disturbed because the faculty has caused four electric lights to be erected on the campus. They don't care to have their midnight revels interrupted or prevented by such strong lights. The faculty will be formally acquainted with the objections of the students in due time, and some of objections of the students in due time, and some of the leaders assert that if the lights are not re-moved by direction of the faculty, they will be smashed by the common consent of the students. Pretty nearly every one of the old privileges so dear to the hearts of Yale men has been taken away from the campus, and it is a little more than the rising generation can stand to contemplate the possibility of friendly darkness being banished also.

RUTGERS.

New-Brunswick, N. J., Sept. 24 (Special).—Rutgers College reopened for its 128th year on Wednesday. The freshman class is smaller than usual, numbering seventy-two. Of these, the majority are in the scientific section.

There are several changes in the faculty. Dr. Thomas Logie, a graduate of Williams College, will occupy the chair of associate professor romance languages. He will succeed Dr. Louis Bevier, who will hereafter teach Greek. Dr. Jacob Cooper, former professor of Greek, will teach philosophy and logic. William S. Meyers, Rutgers, '89, is a new teacher in the chemical department. Since his graduation, Mr. Meyers has studied in Berlin and London. W. L. Loeher is a new instructor in French and German. L. R. Gibbs, of Wesleyan, is instructor and University

Extension lecturer in English literature. The Delta Chapter of the Chi Phi Fraternity has leased the handsome house of Professor Peter T. Austen, on Union-st., and is occupying it as a

chibhouse. The Winant Hall Senate has been chosen as The Winant Hall Senate has been chosen as follows: Layton, Van Duzer, Van Brackle and Dennis, of '94; Grant, Van Slyke and Eaton, of '95; Paulson and Hibler, of '96; Torrey, of '97.

"The Targum" election for three editors from the senior class occurred on Friday. Those chosen were Daniel Hand, W. B. Judd and P. C. Thomas.

PENNINGTON.

Pennington, N. J., Sept. 24 (Special).-Pennington minary enters on its fifty-fourth year with a large attendance. Extensive improvements were made during the summer, among which were a new steam plant for the laundry, extra shower baths and dressing-rooms for the football and base-ball teams, and further improvement of the quarter-mile running track. The prospects are excellent for this year's eleven, and the men are working hard to hold the Wesleyan interseminary cup won last season. The team will probably consist of H. Reiter (captain) and J. A. Gross, halfbacks; C. Mintzer, quarter-back; J. Gass, fullback; A. C. Mintzer, quarter-back; J. Gass, fullback;
J. A. Wade, centre; J. M. Townsend, E. V. Armstrong, guards; F. Ahn, J. R. Henry, tackles. The
ends are not yet decided, but they will be taken
from among the following: Post, Jackson, Carrol, Finnegan, Brudenberger, Warren.
A banquet and reception tendered the new students by the Y. W. C. A. and Y. M. C. A. was
a notable feature of the opening week.

Poughkeepsie, Sept. 24 (Special).-Vassar College will have this year the following named new instructors: Miss MacCurdy, of the Harvard Annex, Greek Wiss Franklin, Ph. D., Bryn Mawr, Latin; Miss Brown, B. S., Massachusetts Institute, assistant in biology; Miss E. C. Palmer, A. B., Vassar, assistant in laboratory; Miss Johnson, A. M., University of Michigan, history; and Miss Mace, A. B., Vassar, mathematics,

The college will be full, notwithstanding the addition of Strong Hall last year, but the effect of the panic has been to cause the withdrawal of a number of students. A few weeks ago the enrolment

was far in excess of the capacity of the college In addition to the general cleaning, new recita tion rooms have been made out of the old library, plumbing has been put in Music Hall, many rooms furnished with new furniture, and great im Miss Abby F. Goodsell, of the class of '69, who

served the college as lady principal from 1881 to the spring of 1891, and who left because of the fall-ure of her health, died in San Diego, Cal., on Sep-tember 19. Miss Goodsell was one of the most faithful officers the college ever had, loyal to its interests, devoted to the welfare of its students.

THE WOMAN'S COLLEGE.

IMPROVEMENTS MADE AND EXPECTED.

Baltimore, Md., Sept. 24 (Special).—Regular class work will begin on Monday. eral large cases of apparatus for the use of the the courses in these departments have been considerably extended and the facilities for complete study have been increased, so that students who shall go from the Woman's College to the Johns other institution. A larger number of students Hopkins Medical School will not be hampered by insufficient preparation. Two new instructors have insufficient preparation. Two new instructors have been added to the department of biology-Dr. Maynard M. Metcalf, of the Johns Hopkins University.

curator of the museum. During the summer the mineralogical, botanical and palaeontological collections, which form the nucleus of a museum, have been catalogued and arranged by Mr. Bibbins, so that they are in excellent shape and now only a able display. A former donor to the museum has expressed his intention to follow his first generous gift by one still larger, and others interested in the college have also promised gifts in the near

will soon be a necessity. is the removal of the library from the main hallway of Goucher Hall to a large room on the second floor. The walls have been lined with oak fitted up as a reading room. In addition to the generous purchase of books made at the end of the last term, Professor Frank R. Butler has selected last term, Professor Frank R. Butter has selected with one of two thousand volumes, which will arrive next week. The library is in charge of Professor Joseph S. Sheñoe, who has as his assistant Miss Mary E. Plimpton, a graduate of '36.

The president, Dr. J. F. Goucher, has recently returned from an extended visit to the West, where he went on business connected with the college.

Miss Marie Hilhen, instructor in German, has een compelled on account of ill-health to abandon er work for the term. Her place will be filled by er work for the term. Her place will be filled by r. Frances Mitchell Frolicher, of the University

Dr. Frances Mitchell Frolicher, of the Zurich.

Mrs. Jennie E. Gaffield, of Bradford, Vt., has been appointed lady in charge at Home I., in place of Mrs. M. A. Thomas, who has been so successful in her position for the last three years.

The senior class will have as the twentieth member Miss Lily Beck, who has been for three years a student at the University of Minnesota.

Miss Ellzabeth R. Walden, a daughter of Bishop J. M. Walden, of the Methodist Episcopal Church, has entered the freshman class. A daughter of Bishop Hendricks, of the Methodist Episcopal Church South, has also become a member of this class.

DICKINSON.

Carlisle, Penn., Sept. 24 (Special).-The fail term of the college proper opened on Wednesday, September 14, but the recitations were not res till the following day. With the opening of the college nearly all of the old students returned.

The freshman class is the largest that has ever entered Dickinson, numbering about seventy-five. The whole number of new students, including the preparatory school, is 165, making the total num-ber now in college above 250. A few changes have occurred in the faculty, and two new departments have been added. Professor Lindsay will give a course in biology one hour per week during the for juniors and seniors. The sophomeres will also have a course in general history under him.

Seilers, '98, will assist in the advanced German of

Seilers, '96, will assist in the advanced German of the sophomore class. With the large number of students and the above changes in the curriculum, a most prosperous year is looked for. The football outlook for the coming season is most promising. There are several candidates for each position on the eleven, and with Hockman in the centre the team will do efficient work in the field. Freddie Stitt, '35, was elected captain.

South Bethlehem, Penn., Sept. 24 (Special).— Memorial services for the late president, R. A. Lamberton, LL. D., will be held in the chapel Sunday next. The eulogy will be delivered

by Bishop Rulison.

The new physical laboratory is now completel and in use. The building is of stone, 25 by 6 feet, and four stories high. The first floor is used for electric work, and contains dynamo, battery, balance, calorimetric rooms and a workshop. Special rooms are provided for original investigaa valuable addition to the team. It is said tion, Beneath this floor is an even temperature

Northampton, Mass., Sept 24 (Special).-The Smith College Association for Christian Work tendered a reception to the faculty and entering class on the first Saturday of the term. Every one present was compelled to wear a card with her name and class written upon it, and as far as possible all the formal introductions of similar receptions were done away with. Sunday evening the association held a meeting. Reports from all the benevolent societies in college were given, and a cordial invitation to new workers in the various branches of its work. Last evening the so-called freshman frolic took

The excitement of the week centred in and excitement of the week centred in the senior and junior elections, which resulted in the choice of Miss Mary P. Frost, of Dover, N. H. as senior president, and Miss Amy O. Aldrich, of Providence, R. L. as junior president. The two secret societies, the Alpha and the Phi Kappa Psi, have also held their first meetings.

HAVERFORD.

Haverford, Penn., Sept. 24 (Special).-Regular classroom work was resumed on Wednesday. The freshman class contains twenty-three students. faculty. Dr. Mustard, of Toronto University, has the Latin department in charge, Dr. Pratt, of University of Michigan, takes Dr. W. S. Hall's place in biology. Rufus Jones, Haverford, editor of "The Friends' Review," has in charge the department of logic and psychology. Mr. Babbit, 19, has been secured as athletic trainer. The office of dean has been left vacant by Pro ssor Sanford's leaving. His duties will be formed chiefly by Professor Ladd and President

Mr. Hamiin, Yale, '93, has been secured to coach the football team. Manager Webster has arranged the following games: September 30, Germantown Cricket Club, at Haverford; October 7, Warren Athletic Club, at Haverford; October II, Delaware Athletic Club, at Haverford, October II, Delaware Field Club, at Wilmington; October II. Steelton Football Team, at Harrisburg, October 21, Johns Hopkins, at Haverford; October 25, the College Department of the University of Pennsylvania, at Haverford; October 28, Franklin and Marshall, at Haverford; November 8, Temperance Athletic Club, at Haverford; November 11, Dickinson, at Carlisie; November 25, Swarthmore, at Haverford.

wellesley, Mass., Sept. 24 (Special).—This year Wellesley College has twenty-two departments of study, with seventy-cight professors, associate pro-fessors and instructors; 158 courses of study are offered by the different departments.

Miss Charlotte F. Roberts, associate professor of chemistry, who took advantage last year of th opportunities for study offered to women by Yale ollege, will study at Yale again this year, Henry P. Talbot and Dr. Augustus H. Gill, of the Massachusetts Institute of Technology, non-resi dent lecturers in chemistry at Wellesley last year, will continue in that capacity during the present

Mr. George F. Baker, jr., instructor in rhetoric at Harvard College and at the Harvard Annex, will conduct the course in junior forensics and argumentation at Weilesley this year.

gumentation at Wellesley this year.

Miss Eliza Ritchie, Ph. D., of the philosophy department, who spent last year in travel abroad, has resumed Ler duties at the college.

Mrs. Pauline A. Durant, widow of Henry F. Durant, the founder of Wellesley College, is slowly

The robbery was probably committed during the early part of August, so that the chance of detecting the criminal is very slight. Some of the stolen goods have been recovered in a pawnshop in the city. The prinimportant article taken was a bunch of keys which

ited subject to the action of the undergraduates, one of the authorities yenture an opinion as to exact size of the incoming class. The number vomen will be larger than usual, but probably e will not be over eighty men. For the last de the classes which graduate in odd years a laways been inferior. Examinations for adsion will be held September 25 and 27. In spite the uncertainty of the incoming class, all thens in North Cellege, recently refitted, have been in.

BOWDOIN. Brunswick, Me., Sept. 24 (Special).-The fall term opened Tuesday with what seems likely to prove the largest freshman class in the history of the college. Sixty-four were present at the first recitagives instruction in rhetoric and elecution, in place leave of absence on account of ill health.

The walls of the Searles Scientific Building are now rising rapidly. Progress was delayed somewhat during the summer by the failure to receive the steel beams required for the floors.

Rochester, Sept. 24 (Special).-The University of chester opened on Thursday with the largest dent Hill has assured Miss Wilkinson that for the present she will be permitted to take the same studies as the others. He will bring the matter before the Board of Trustees at its first meeting, as there is no provision for coeducation in the university, and the sentiment in the board has always been against it, at least until additional funds are provided. The members of the upper classes are not enthusiastic over the innovation, but the freshmen are loyal to the "co-ed," and have made several noisy demonstrations in her honor. Miss Wilkinson has also been elected temporary sectetary of the class. Thomas Brown, jr. of Scotts ville, is temporary president Hill has written a textbook on "the class." Thomas Brown, jr. of Scotts textbook on "the class." Thomas Brown, jr. of Scotts textbook on "the class." Thomas Brown, jr. of Scotts textbook on "the class." The member of "the Amberst Student" appeared yesterday morning, with a few changes in its editorial board. L. E. Smith and H. F. Stone have taken the places made vacant by the resignations of G. H. Backus and S. P. Cushman as editor-in-chief and business manager. E. B. Smith, "4, and W. D. Stiger, "56, are now assistant editors." are not enthusiastic over the innovation, but the freshmen are loyal to the "co-ed," and have made several noisy demonstrations in her honor. Miss Wilkinson has also been elected temporary secretary of the class. Thomas Brown, Jr., of Scotisville, is temporary president.

During his vacation President, Hill has written a textbook on "Genetic Philosophy," and has revised his "Elements of Rhetoric."

CORNELL

Ithaca, Sept. 24 (Special).-Football is the abs last month while attempting to save a young companion from drowning gave a dark tinge to the bright hopes of a strong eleven at Cornell this fall. But "Charlie" Barr, '93, who was Witherbee's chief rival for the captaincy, has returned to engage in graduate work, and has been unanimously chosen captain. Barr played tackle on the eleven three years, and is one of the strongest, plucklest and headiest players on the field. He is in fine ball candidates at Percy Field every afternoon. Carl Johanson, captain of last year's team, has also come to Ithaca, and for the next six weeks his last year's eleven Barr, Young, Cartis, Warner, Hanson, White and Harvey will return to the University. New men will have to be found for centre, left tackle and halfbacks. "Eddie" Young, the brilliant end, will try for fullback, if his place can be satisfactorily filled. Candidates for places back of the line have been practising at

Next to football, the departure of Courtney to Harvard excites the interest of undergraduates surtney is not satisfied with the present method of raising crew funds, which makes his salary dependent upon voluntary subscriptions, and he de-clares that unless the matter is remedied he will ever his relations with the Cornell navy, and enter into a permanent engagement with Harvard. No greater misfortune could befall Cornell aquatics, and Cornell undergraduates and alumni are beginning to comprehend the dangerous situation.

Professor C. E. Hughes, of the School of Law, Professor C. E. Hugnes, of the School of Law, removed his family last week to New-York City, where he resumes the practice of law. Manday and Tuesday, September 25, and 26, are registration days for old students, and Wednes-day is the date for the matriculation of new students. Instruction begins Thursday, Septem-her 28. The prospects are good for a large fresh-man class.

Schenectady, Sept. 21 (Special).-Union College opened on Thursday. The incoming class numbers about seventy, up to date, and it is likely to re-ceive still further additions. There are several new students for the sophomore class, Judging from appearances, one would say that the incoming class would average somewhat older several previous classes. There are two changes in the faculty. Professor Pepper, a graduate of take the place made vacant in the department of modern languages by the resignation of Professor Wright, Mr. Edward W. Burke, a mem ber of the class of '95, becomes instructor in English, a new office. There are now three members

Doctor Linhart gives the students regular and systematic exercise for the preservation of health and for physical development.

Freparations are in progress for the proper observance of the centenary of the founding of Union College. The committee appointed by the Alumni Association has asked for the appointment of a committee from the faculty to co-operate with the other committees. The flutterfield lecture course, which proved to be of so much interest last year, will be resumed in a short time.

TRINITY.

Hartford, Conn., Sept. 24 (Special).-The football eam has practised steadily and is getting into good form, although the rush line is too light in weight. During the vication the campus has been sup plied with electric light, and a new postoffice and Hall. The gymnasium has recently been provided with a tackling machine and numerous other new pieces of apparatus. Three new shower-baths have also been provided in the basement.

Boston, Sept. 24 (Special).—Boston University opened two of its departments last week. There re about 150 applicants for admission to the 'ollege of Liberal Arts, and it is safe to say that the entering class numbers over 100.

One important change is to be noted in the fac-

oity of the Theological School. Luther Townsend, S. T. D., who occupied the chair of Harris S. T. D., who occupied the chair of Harris professor of practical theology, resigned last spring. at the end of twenty-five years' service, and his Professor Whitman has for some time been en-

Frank A. Irwin has been appointed junior adjunct professor in the Law School, to succeed Mr. Jessup. The graduate courses of the Law School are to be carried on throughout the entire day hereafter. The graduate room is to be set apart for seminary work under the direction of the dean, Austin Abbott. The rooms of the School of Pedagogy have been

improved during the vacation and a larger space assigned for their work. Dr. Shaw has been in charge of the exhibit at Chicago, assisted by Mrs Adams. Under their direction the exhibit has attained a marked success. Additional facilities have been provided for the

laboratory work under Professors Robert W. Hall and Morris Loeb. These professors carried on with success a special summer school of chemistry for Several professors of the University faculty have

ton Academy team, has a cinch on left tackle and done special work in connection with the Chicago Exposition. A paper by Chancellor MacCracken was read before the World's Educational Congress; Rosa is back to play left end. To the right of a paper by Dr. Austin Abbott before the World's Law Congress. Dr. Abbott also read a paper before the Law Association of Milwaukee on "Law Education," which will be published in "The Yale Review," and also in "The American Law Review." Dr. Shaw, of the School of Pedagogy, spoke at Chicago in the National Association of Education, and a paper was read from Dr. Jerome Allen. Several other professors took part in various conrresses at Chicago. During the summer the University has been im-

proving its new purchase at University Heights by the opening and grading of University-ave. from the opening and grading of University-ave. From east to west about a third of a mile long; also Aqueduct-ave., Andrews-ave, and Loring Place, from north to south. Four lots at the intersection of University-ave, and Andrews-ave, have been purchased by the Fat Upsilon and by the Zeta Psi fraternities. Improvements have also been begun on the hospital property adjoining in the way of street opening.

on the hospital property adjoining in the way of street opening.

Professor Murray spent the summer in Europe; the other professors, with few exceptions, have taken their vacations in the West. The Chancellor spent three weeks at the World's Fair and the remainder of the summer on his farm, in the West-ern Catskills. At Pine Hill, Professors Stoddard and Hering labored with him as members of the Committee on Curriculum. This Catskill village was also the summer home of President Schurman of Cornell and President Morton of the Stevens Institute. While at Pine Hill the Chancellor preached each Sunday morning in the little church where the Rev. Dr. Howard Crosby used to preach during his vacations.

Pennsylvania, at Philadelphia; November 4, Lehigh Institute. Its doors open to-day to morning, afternoon and evening classes. The total enrolment is Club, at Washington. eshmen have organized, and elected E. M., president, and C. C. Stoddard, of Iowa, equal to, if not an increase over, that of last year, Among the new instructors are Frank Vincent Dumond and Herbert Denman, both of the Society of American Artists. They will instruct the life and portrait classes of the department of art. Mrs. L. A. Spaiding, formerly of the Brooklyn Girls' High School, will have charge of the literature and English work of the Pratt Institute High School, and Miss Belle Foster will be the instructor of the freshman classes in natural science. A new feature in the department of kindergartens will be training classes for children's nurses. The department of libraries has issued a circular descriptive of its library school. This school has opened a new field of work to women with literary tastes. The entrance class already numbers sixty-four. L. A. Spalding, formerly of the Brooklyn Girls' Providence, R. I., Sept. 24 (Special).-Wednesday morning in Sayles Hall the opening exercises of the year of Brown University were held. About 700 A new scheme will be launched next Monday, which, if a success, will be a beginning of what has been needed at Brown for a number of years,

LECTURES AT ST. FRANCIS XAVIER.

The university extension and post graduate course at the College of St. Francis Xavier will open next Monday and hold its sessions of ethics on Mondays and Wednesdays, and of natural science on Tuesdays, in the College theatre at 8 p. m. There is no charge for attendance, and men and women may obtain tickets at the College from the president or from the lecturers. Seats in the balony will be reserved for women.

The natural science course by the Rev. John W. The natural science course by the Rev. John W. Fox will embrace this year: Introduction to general chemistry-chemistry of metals, of carbon, of combustion (animal, vegetable, mineral, spontaneous), and latent heat, electricity.

The lectures on ethics, by the Rev. P. A. Halpin, besides including the general principles of ethics and the discussion of man's duties to religion, to himself, to the family, and to the State, will take up the questions of the origin of ideas, the nature and immortality of the human soul, and other important topics of psychology.

NOTES OF INTEREST.

the degree of Ph. D. at the Johns Hopkins Uni-Miami University, Oxford, Ohio, entered upon its sixty-ninth year on September 13 with a large increase in the number of new students. engaged as vocal instructor. She has had great changes have been made in the faculty. Professor E. P. Thompson, of Westminster College, Pennsylvania, takes the place of Professor J. V. Collins in the department of mathematics, and Professor Langsdorf, who has just returned from several years study in Germany and at Oxford, England, lills the chair of Latin effect on the Western of Professor Merrill, who is now at the University of Indiana. Miss Clara A. Bliss has been added to the scientific department as teacher of chemistry and biology. Miss Bliss is a graduate of Mount Holyoke, has studied at the Hoston Institute of Tech-nology, and has had wide experience in teaching. Advanced elective courses in physics, chemistry, and botany have been introduced, and for these courses a large amount of modern apparatus has

The Young Men's Christian Association of Yale University desires to extend a cordial welcome to all new students. Pastors, teachers, parents and any others who may have friends about to enter Yale are invited to send letters of introduction to the president or general secretary of the associa-tion, who will make every effort to afford the new-comers all aid that older students can render

The forty-first session of Roanoke College on September 13, with a gratifying number of students present on the first day, representing ten dents present and the Indian Territory. An unusually large proportion of the young men are entering the regular courses for graduation. Hamilton College, Clinton, N. Y., reopened on

dents from the East, as well as from the New West. President Slocum's purpose to create one of the leading institutions for higher education at the foot of the Rocky Mountains is being rapidly realized. Thursday with a freshman class of about fortyfive, while some fifteen men entered the upper classes. President Stryker called the notice of the college to the deaths of John N. Beech, Brooklyn, and that of Frank Burrows, %, of Boon-ville, Ellh oot, of New-York, has placed a cast of the frieze of the Parthenon in the library. The football team has begun training under Fred. H. Ralston, of the class of '93. ments the attendance is larger than it was last year. The increase in the attendance at Adelbert dlege is especially noteworthy. Last year this institution had the largest number of students in

for many years. The competitive examinations fo the prize scholarships (respectively \$280, \$175, \$150 a year) are in progress. Since commencement a scholarship has been established by Mrs. Marianne Butler, of New-Hartford, N. Y.; endowments \$5,000. The conditions are the same as for the scholarship of the same amount established in the spring by Mrs. Agnes Demorest, of Buffalo. The latest important gift to the library is that of the Rev. Dr. C. F. Hoffman, LL. D., New-York, 1,009 for an alcove. During the summer the dormitories underwent a thorough renovation, special pains being taken to render their sanitary condition unexceptionable. Butler, of New-Hartford, N. Y.; endowment

classes elective courses have been arranged for the class of '94 as follows: English literature, Dr. James O. Murray, D. D.; advanced physics, Dr. C. F. Brackett; international law, Professor W. M. Davids, all of Princeton College. Also a course in elective mathematics.

The Claverack College and Hudson River Institute opened its fortieth year on Monday, registering a large number of students upon the first day, to which constant additions have been made durto which constant additions have been made during the week. Many improvements have been made in the buildings during the summer vacation, the chapet having been newly frescoed, class rooms refurnished and additional apparatus placed in the gymnasium. The faculty remains nearly the same as last year.

new year with a considerable increase in attendance. The faculty has received two new members. The college chaplaincy, which has been filled temporarily by Professor Streibert, the professor of Hebrew, is now held by the Rev. H. M. Denslow, formerly of Seneca Falls, N. Y. Mr. Denslow is a Yale graduate of '73 and, besides his parochial work, he will act as instructor in Christian evidences. The Rev. Charles L. Fischer, formerly of of German in the college and of New Testament of German in the college and of New Testament exegesis in the theological seminary. Mr. Fischer is a graduate of Trinity College, Hartford, and of the Philadelphia Divinity School. As examining chaplain of the diocese of Philadelphia and in other capacities he has had large experience in educational matters. Mr. T. C. Laughlin, of Princeton, '92, has been appointed instructor in Greek and Latin, vice Mr. Guy H. Buttolph, resigned.

BRAZILIANS GRUMBLING AT HIGH PRICES The Red "D" steamship Hildebrand arrived here

early yesterday morning from North Brazilian She left Ceara September 2, and Para September 12. First Officer Evans says that a few days before she left Para cable communication with the south was interrupted. Every one knew that the army and navy were at loggerheads, but no one had definite details. The government laid an embargo on all Brazilian boats for several days, and a number of steamers filled with passengers were detained at Para. Foreign vessels were not interfered with, and the day the Hildebrand sailed the embargo was removed from Brazilian ships. There was not much excitement in that part of Brazil. One gunboat lay in the river, but she made no demonstration, although supposed to sympathize with the rebels. Indians and negroes predominate in the north, and make up the army, which is loyal to the present govern-

There is much grumbling over the high prices of There is much grumbling over the high prices of merchandise and the depreciation in value of the milreis. This coin, which was worth about 50 cents under Dom Pedro, is now worth only about 20 cents. There are many rumors of attempts brewing by the Conte d'Eu, son-in-law of Dom Pedro, to restore the Empire.

The Hildebrand is a new vessel, built at Aberdeen. She left Liverpool on her maiden voyage about four and a half months ago. After touching at European ports she runs along the North Brazilian coast, and then comes to New-York, returning over the same route.

CAPTAIN HIGGINSON WAS JUSTIFIED.

Captain Francis J. Higginson, who was detached from the cruiser Atlanta after her arrival at Greytown, Nicaragua, a few months ago, and who protested against what he considered a punishment for delay in putting to sea, declaring that the vessel was not in condition for service, recently asked to restored to duty and to have the command of the battleship Massachusetts given him. Secretary, Herbert has written a letter to Captain Higgins promising to restore him to duty and expressing the opinion that the Atlanta's condition warranted him in remonstrating against putting to sea, in view of the recent disclosures regarding that vessel, and had he, the Secretary, known the condition of the ship, another officer would not have been ordered to relieve him of the command.

A RECEPTION TO BE GIVEN TO DR. D. H. MANN.

A reception and testimonial will be tendered to Dr. D. H. Mann, R. W. G. T. of the Good Templars, at Jaeger's Hall, Madison-ave, and Fiftyninth-st., this evening. Addresses will be made by the Rev. D. T. L. Cuyler, Major-General O. O. Howard, T. L. James, Dr. T. L. Poulson, the Rev. Dr. W. C. Steele, D. H. Hooker, Grand Chief Templar of New-York, and the Rev. Stephen Merritt. Refreshments will be tserved after the speeches. Tickets can be obtained from J. N. Stearns, No. 58 Reade-st., or J. B. Jackson, No.

Special trains leave Chambers-st. at 10:15 a. m. to-morrow, September 2c, and Saturday, September 3c. Limit ten days, with privilege of returning via Niagara Falis.
